johnpaul-bodino.github.io

I am Computer Science fresh graduate with hands-on experience in backend development, building RESTful APIs, and managing databases. Skilled in developing efficient, scalable solutions and familiar with frontend technologies and application deployment. Driven to grow professionally, explore new technologies, and strengthen technical expertise.

PROFESSIONAL EXPERIENCE

EAST - Enrollment System

April 2025 - June 2025

Software Developer Intern | 8con Academy - Meycauayan, Bulacan

- Improve and maintained backend features for an enrollment system, including server-side logic, database management, and API integration using Node.js and Express.js.
- Established and documented RESTful APIs to support enrollment workflows and ensure clear structure for integration.
- Designed and developed a prototype for an onsite enrollment system aimed at streamlining student management and course management for 8Con Academy.

RELEVANT PROJECTS

Takarakuji: Minute Lotto App

College Project | Node.js (Express.js), JavaScript, WebSockets, Docker, MySQL, ReactJS June 2022 - August 2022

- Developed RESTful APIs using JavaScript (ES6+) with JWT authentication and CRUD operations to support secure user interactions and data handling, improving application security and reliability.
- Built a responsive frontend using React.js and Tailwind CSS and applied WebSockets to enable real-time data updates, enhancing user engagement and interactivity.
- Created the UI/UX in Figma, focusing on usability and an intuitive user experience.

Codemanía - Interactive Learning Platform

September 2024 - March 2026

College Thesis Capstone | ReactJS, JavaScript, Node.js, RESTAPI Development, Supabase, PostgreSQL

- Built RESTful APIs and backend logic using Node.js to manage user data and application workflows, improving system performance and data flow.
- Designed and implemented scalable database architecture and deployed services using Railway to support reliable application hosting and efficient data management.
- Collaborated with the team to resolve frontend issues based on user feedback, enhancing usability and overall user experience.

EDUCATIONAL HISTORY

Bachelor of Science in Computer Science

2022 - 2026

College of Mary Immaculate, Poblacion, Pandi, Bulacan

CERTIFICATES

- Harnessing the Power of AI for Progress and Development (2025), Claude 101 (2026)

TECHNICAL SKILLS

Programming: JavaScript, Python, C++, PHP
Frontend: React, JavaScript
Backend: Node.js, RESTful APIs, FastAPI, Express.js, Flask
Database: MySQL, PostgreSQL
Version Control: Git, GitHub
Tools & Technologies: Docker, Virtual Machines, XAMPP, AWS
AI Tools: GPT, Gemini, Claude
UI Editing: Figma
Photo/Logo Editing: GIMP, Canva
Methodologies: Agile Development, Scrum
